Saab Signs Co-operation Agreement with IBD Deisenroth Engineering

Defence and security company Saab announces the signature of a co-operation agreement between Saab and IBD Deisenroth Engineering for the development of vehicle survivability.

Saab and IBD Deisenroth Engineering have synergies in their products and technologies that will allow the co-operation to provide advanced survivability solutions for land sea and air applications.

“The co-operation with IBD will give our companies a possibility to provide effective survivability solutions and it will give the possibility to provide new high tech solutions”, says Görgen Johansson, head of Saab business area Dynamics”

“The worldwide presence of our cooperation partner Saab will allow IBD a much better access to international markets for the new advanced technologies”, says Ulf Deisenroth, President IBD.

IBD is an international company engaged in the business of research, development and manufacturing products that provide a defence capability to protect military platforms from attack.
