Saab Receives US Army Order for Camouflage Solutions

Defence and security company Saab has received an order for the production and delivery of camouflage equipment from the US Army. Deliveries will occur over the next six months.

Saab has global leadership in the design and manufacture of advanced camouflage solutions for the defence market and continues to attract new and existing customers around the globe. For decades in the US, Saab has been the leading supplier to the US Army within this product area.

“We are proud to be able to continue to deliver state-of-the-art solutions to the US Army. This order further proves Saab’s unrivalled position as the world-leader within signature management technology. It is also an important step forward towards sustaining a critical U.S. signature management industrial base,” says Brian Keller, President of Saab Barracuda LLC.

Saab’s advanced camouflage technology products have until now been exported to more than 50 countries. Saab offers a unique package of camouflage systems and force protection solutions with the purpose to decrease the enemy’s ability to detect and engage. These solutions protect camps, vehicles and personnel against hostile sensors and enemy target acquisition.
