## **Saab At The World Air Traffic Management Congress 2018**

Saab, as one of the leading global air traffic management companies, will be exhibiting at the Congress in Madrid from 6-8 March, 2018. Experts from Saab will showcase the diversity of solutions that so many customers choose and depend on, at stand #305.

With Air Traffic Management (ATM) solutions deployed operationally at more than 100 locations, Saab's technology is trusted to serve the busiest and largest airports in the world. Saab has successfully tackled some of the most complex ATM challenges through its innovative and dependable solutions.

"Saab offers customers experience they can rely on. Our exceptionally broad and deep experience enables us to understand our customers, work collaboratively to define customised services, identify areas for future growth, and provide full life-cycle support", says Mike Gerry, head of business unit Air Traffic Management within Saab business area Industrial Products and Services.

To learn more about how Saab ATM solutions and Saab Digital Air Traffic Solutions (SDATS) are making a difference across the globe, Saab will hold a media briefing on Wednesday 7 March at the Saab stand (#305) at 13:00-14:00. Speakers are Mike Gerry of Saab and John Klintberg, CEO of SDATS. SDATS is a joint venture established between Saab and LFV, the Swedish air navigation service provider, offering digital towers services throughout the world.

On Tuesday 6 March, 16:15 in the Tower Theatre Niclas Gustavsson, Saab Vice President Business Development & Governmental Affairs will give a presentation on how technology is only half of the delivery when it comes to digital towers.
