Royal Danish Army Orders Camouflage from Saab

Saab has received several orders from Danish Defence Acquisition and Logistics Organization for Static Camouflage Systems. Deliveries are expected to take place in 2019.

The Royal Danish Army has been a user of Saab Barracuda's signature management systems for more than 25 years. The new orders contain static camouflage systems, which is an advanced multispectral camouflage net that provides unrivalled signature protection for vehicles and other objects in static positions.

"With these products The Royal Danish Army will have the most advanced multi-spectral camouflage systems on the market, providing them with exceptional levels of multi-spectral protection against multiple sensor threats", says Görgen Johansson, head of Saab business area Dynamics.

Saab Barracuda camouflage solutions offer multispectral protection. Everything from ultra-violet, visual, near infrared, short wave infrared to thermal sensors and radar.

Saab Barracuda's advanced camouflage technology products have been exported to more than 60 countries worldwide. Saab offers a unique package of tailor-made camouflage systems and force protection solutions that decrease the enemy's ability to detect and engage. These solutions protect personnel, vehicles and base infrastructure against hostile sensors and enemy target acquisition.

This orders were booked in 2018.
